Sundry adjustments affecting the cost of power of certain of the municipalities were made from time to time in the accounts of the Commission. These adjustments have been given effect to in the figures appearing in the "Actual Rate" columns of the summary. Details regarding average horse power loads and interim and actual rates charged have been obtained from a report submitted to you by the Accountant of the Commission under date of October 5, 1922. We have made a test of the results shown therein, but did not attempt to verify them in detail.

Referring again to the attached summary it will be observed that power was not delivered to the Municipality of Welland until September 1917 although the original power contract was dated September 30, 1912. This is accounted for by the fact that this municipality was included in "Niagara Rural Lines" on the Commission's books until September 1917, at which time it commenced to receive power direct from Niagara System High Tension Lines and was consequently transferred to "Niagara System Lines".

In connection with the question, as to whether or not, estimates should be included in the enabling by-laws submitted to the electors of the various municipalities, we are submitting copies of an extract from a by-law of the Municipality of Strathroy containing the estimated cost of power together with a communication from the Secretary of the Commission to the municipality in regard thereto.

We shall be pleased to furnish you with any further information you may require regarding any of the above features or in connection with the figures submitted with reference to any of the individual municipalities.

Yours very truly,

*Price, Waterhouse & Co.*

COMMUNICATION FROM COMMISSION'S SECRETARY  
IN REGARD TO ESTIMATES INCLUDED IN ENABLING BY-LAW

December 16th, 1913

F.W. Atkinson, Esq.,  
Town Clerk,  
Strathroy, Ont.

Dear Sir:-

I have before me your letter of the 13th addressed to the Chief Engineer, attached to which is a copy of the By-law that is being submitted. I was surprised to learn that the form of By-law furnished to you had not been followed and that in the recital to the By-law there has been inserted "200 H.P. at \$44.00 per H.P." These words should not have been added and would, if allowed to remain, in my judgment leave it open to attack, and if attacked I am satisfied that the By-law would be held bad, as the Act does not provide for any such language. I think you could remedy this by striking these words out whenever they appear in the recital or By-law and have it submitted in the form that was furnished (sic) you. Lest there was any doubt about it, I am enclosing a printed form of the By-law which has been adopted in every case in connection with the Hydro for the last 4 years.

As to those entitled to vote, they are the same as those entitled to vote on a money By-law, viz., property owners or those holding leases of a term of years equal to the term covered by the contract.

As to the money By-law, inasmuch as the money would be required to extend your present system of distribution, the Railway and Municipal Board have power to approve of the issuing of debentures without a vote of the people. The method has been that the Council pass a By-law authorizing the issuing of debentures for the amount required. You then come to the Railway and Municipal Board for their order ratifying the By-law and issuing of the debentures.

As I say, I think you can still allow your advertisement and By-law to stand striking out the words I have mentioned wherever they appear in the By-law.

Yours truly,

Secretary.
